KYUSHU UNIVERSITY HOSPITAL INFORMATION

Leading Japanese Medicine, Transmitting It to the World

We contribute to the World's medical advancements.

Kyushu University Hospital is a national university hospital, located in Fukuoka City, a gateway to Asia, with a history spanning more than 100 years. Our hospital is one of the leading affiliated medical and dental school hospitals in Japan, boasting a staff of over 3,300. On average, we serve 3,100 outpatients per day and maintain a bed capacity exceeding 1,400. Additionally, we have a branch hospital, Kyushu University Beppu Hospital, situated in Beppu City, Oita Prefecture, renowned for its hot spring therapeutics.

Medical Institute of Bioregulation, Research Institute for Applied Mechanics, Materials Chemistry and Engineering, Mathematics for Industry

University Library 4.23 million items (As of May 1, 2023)

Kyushu University's founding can be traced back to the establishment of a medical school for the Fukuoka feudal clan in 1867. The facility's medical school and clinic were maintained and later evolved into the Shuyukan Clinic, Fukuoka Hospital, Fukuoka Prefectural Fukuoka Medical School and Fukuoka Prefectural Fukuoka Hospital; in 1903, these entities merged to form the Kyoto Imperial University Fukuoka Medical School, which was the immediate predecessor of the university. In 1911, the school was renamed Kyushu Imperial University.

About Hospital

Kyushu University Hospital is affiliated with the Faculty of Medical Sciences, Faculty of Dental Science, offering the most advanced medical care based on the latest research. We have a history exceeding 100 years since our establishment.

- 1867** Sanseikan is established as a Medical Institution for Western medicine for the children of the lord and their retainers in the domain of Fukuoka under the Kuroda Clan. The roots of this hospital can be traced back to the clinic affiliated with that school.
- 1879** In the beginning of the Meiji period the clinic becomes an affiliated hospital of Fukuoka Prefectural Medical School.
- 1903** Fukuoka Medical College, a branch school of Kyoto Imperial University is established, and the hospital becomes affiliated with that school.
- 2003** The three hospitals affiliated with Faculty of Medical Sciences, Faculty of Dental Science and Medical Institute of Bioregulation merge to form Kyushu University Hospital.
- 2009** Plans for the construction of a new hospital, which began in 2000, are completed. The new hospital consists of a South Ward, North Ward and Outpatient Ward.

International Medical Department

The International Medical Department (iMed) consists of three centers, the Overseas Exchange Center (OVEX), the Telemedicine Development Center of Asia (TEMDEC) and the International Patient Support Center (IPAC). OVEX promotes international exchanges among medical staff. TEMDEC is establishing a practical network for international remote medical education. IPAC encourages the acceptance of international patients from both Japan and elsewhere. All staff in iMed can speak English. Teachers in each diagnosis and treatment department will collaborate under the direction of iMed's director and vice-director.

Overseas Exchange Center (OVEX)

OVEX aims to develop global human resources. It promotes international exchanges among medical staff, such as overseas training and visits from foreign medical staff and researchers. OVEX also supports foreign visitors to ensure that they have a comfortable and meaningful stay.

Telemedicine Development Center of Asia (TEMDEC)

The center aims to establish effective and consistent medical communications among Asian countries, using super-fast Internet and advanced technology.

International Patient Support Center (IPAC)

IPAC supports Kyushu University Hospital in providing advanced medical care for international patients, and serves as a center for advanced healthcare in Asia, making an international contribution. An international patient is defined as either a foreign national or a Japanese citizen residing abroad, or a foreign citizen living in Japan.
